-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 December 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

- 6) ☐ Other: _____.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1, 3, and 8 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 3-4, and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Alperovich et al. (U.S. Patent No. 5,987,318).

Regarding claims 1, 3, and 8, Alperovich et al. teaches a wireless device for connecting to one or more network node devices (e.g., MSC 10), the network node devices connected to one or more wirelines (e.g., connections 250 and 270), the wireless device comprising: one or more wireless signal generators supporting one or more wireless connections; one or more memories comprising an identifier identifying the wireless device; one or more negotiators that negotiate with the network node device in order to establish a connection to one or more wirelines connected to the network node; and a requesting process that requests, through a message sent to the network node device, bridging by the wireless device to a call in progress, the message comprising the request for bridging and the identifier (col. 6, line 50 – col. 7, line 18).

Alperovich et al. teaches the claimed invention except that said call in progress is carried between said network node and a network via twisted-pair wirelines.

However, it would have been an obvious matter of design choice to have the connections between the network node and the network being twisted-pair wirelines since it appears the invention would perform equally well with the connections between the network node and the network being twisted-pair wirelines.

Regarding claim 4, Alperovich et al. teaches the method of claim 3 further comprising the step of communicating with the network node device to establish the eligibility of the wireless device to join a call in progress (col. 6, line 60 – col. 7, line 3).

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
